

# Storage. Manage. Protect.

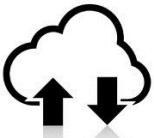

## Don't worry, we'll back you up.

Protects your data from outside virus, Krypto Locker, accidental deletions, or disaster.

Dramatically reducing downtime, while protecting, storing,, and managing information

Constant monitoring Up/Down of Servers

By keeping data stored in the Breaker Data Center, customers have a peace of mind knowing their information is kept secure and off-site, minimizing the chance of downtime.

### How it works:

There will be an initial seeding of data followed by daily delta

### Pricing:

We want to make your life easier, we accept monthly or yearly payments.

- One time \$500 set up fee
- \$200 per month for 500GB of data
- \$300 for 1 Terabyte
- Health of server and services available (\$35 per server)
